

Acknowledgments

The organizers of the Seventh International Workshop on Targetry and Target Chemistry wish to express their gratitude to the Management Board of the German Cancer Research Centre for the financial and infrastructural support of the meeting.

The help in organizing the workshop by our colleagues of the Radiochemistry Department and the Cyclotron Group of DKFZ is also gratefully acknowledged. Thanks to everybody who helped making this meeting a success.

The editors owe very much to Mrs. Jutta Zeisler for transcribing the many tape recordings of the talks and discussions and to Mr. Dirk Becker for preparing the submitted abstracts for computer editing.

The Local Organizing Committee gratefully acknowledges the financial contribution of the companies listed below in alphabetical order.

Amersham Buchler GmbH & Co. KG
